SCIENTIFIC JOURNAL
КЛІТИННА ТА ОРГАННА ТРАНСПЛАНТОЛОГІЯ | КЛІТИННА ТА ОРГАННА ТРАНСПЛАНТОЛОГІЯ

Vol. 12, No. 2, 2024

«CELL AND ORGAN TRANSPLANTOLOGY»

Year of foundation – March 2013

Published twice a year

Registration certificate KB #19692-9492P (dated 20.02.2013)

Published with the support of the National Academy of Medical Sciences of Ukraine

Included in the List of Scientific Professional Editions in Ukraine specialized in medicine and biology since 2014, category «A» (the Order of Ministry of Education and Science of Ukraine #1017, dated 27.09.2021)

Indexed in Scopus since 2019.

Editor-in-Chief

Vitalii Tsymbaliuk

Science Editor

Vitalii Kyryk

Managing Editor

Alina Ustymenko

CONTENT

november, 2024

76 Holiuk Ye., Strafun S., Lushchii O., Ostapenko T., Smorzhevskyi V.
Development of classification and criteria of quality and safety of autologous platelet concentrates for regenerative injection therapy in traumatology and orthopedics

84 Sokolova I., Berbets A., Fediv O., Sokolov B.
Correction of vitamin D deficiency and the role of BsmI (rs1544410) VDR gene polymorphism in mineral metabolism related to cartilage regeneration in osteoarthritis

94 Mekhno N., Dovgalyuk A., Kulitska M., Hlyvka N., Dutchak O., Kornaga S., Korda M., Yaremchuk O.
Human umbilical cord-derived mesenchymal stem cells and nitric oxide synthase modulators inhibit apoptosis and activate autophagy in the lungs of mice with an antiphospholipid syndrome model

102 Palii I., Dovgalyuk A., Kramar S., Korda M.
Changes in the macrophage polarization in the kidneys of rats with acute respiratory distress syndrome after transplantation of human umbilical cord-derived mesenchymal stem cells

110 Varvaruk M.-I., Dovgalyuk A., Dzubanovsky I., Holovata T., Shevchuk O.
The effect of human umbilical cord-derived mesenchymal stem cell transplantation on reparative processes during the reconstruction of muscle-aponeurotic defects of the anterior abdominal wall in rats

118 Konovalov S., Moroz V., Yoltukhivskyi M., Gadzhula N., Deryabina O., Kordium V.
Comparative effects of mesenchymal stromal cells of various origins and sources on biochemical parameters in the hippocampus of rats during cerebral ischemia-reperfusion

126 Ustymenko A., Kyryk V., Tsupykov O., Parkhomenko O.
Prospects for cytokinesis-block micronucleus cytome assay in the comprehensive evaluation of cellular senescence markers
